Business Vantage - New England Named Sole Distributor of BI for BusinessVision by DataHabitat

San Jose, CA, February 24, 2003 - DataHabitat Corporation, a data warehousing and business intelligence company, announced today that it has partnered with Business Vantage - New England to market its new software product BI for BusinessVision by DataHabitat. BusinessVision is a complete business management accounting solution for small and medium-sized businesses. It is used by more than 30,000 companies.

The application for BusinessVision developed by Business Vantage - New England is the newest product in the DataHabitat Packaged Business Intelligence product line. It offers the first packaged data warehouse solution for BusinessVision users, enabling them to analyze and report on their business metrics quickly and cost-effectively.

"BI for BusinessVision by DataHabitat is about creating critical reports at high speed - it satisfies a vital need in today's instant-information age," says Byron Rall, president and founder of Business Vantage - New England. "And it comes with more than 300 reports, queries and key performance indicators - all out of the box and ready to use," he says.

"We are happy to enter the BusinessVision market with Business Vantage - New England," says Elliot Pereira, DataHabitat Vice President. "This partnership will allow us to bring robust yet low-cost business intelligence solutions to thousands of small and medium-sized companies in Canada and the U.S."

BI for BusinessVision by DataHabitat will be officially launched on May 8 at Partnership 2003, this year's BusinessVision Business Partner Conference, in Toronto, Canada.

About DataHabitat:

DataHabitat is a leading provider of Business Intelligence (BI) solutions that helps mid-market companies improve long-term profitability. By providing the right information to the right people at the right time, DataHabitat enables management and operations to make better, informed decisions. Mid-market companies have been using DataHabitat to build their own best-of-breed data warehouses and analytical applications. Along with powerful BI development tools that focus on ease of use and advanced customization capabilities, DataHabitat also provides packaged BI solutions for users of leading mid-market accounting and finance applications (such as Best Software, Great Plains, ACCPAC, and AccountMate). The core of all DataHabitat solutions is ZeroCode ETL which builds open and adaptive data warehouses and cubes using OLE DB and Microsoft standards through a non-programming and visual interface.
